How to make your own Bane mask? Here are some tips you can try.

First, you have to do is buy a cup, not a paper cup. I mean a cup, like a plastic helmet for their nuts. This is the most important part of the

bane mask

.

Secondly, buy a fetish mask with a hole in
the mouth. This is the main screen base.

Thirdly, to your local hardware store and buy
thin plastic tube. Some nuts and nipples fall in different
sizes (yes, apparently they are called).

Fourth, Cut the tube into smaller sizes, slip
on some nuts and nipples with tape on the pipe.

Fifth, Then both ends of the pipe attached to
the mask. If you do this a few times, it seems that the
mask has a realistic ventilation system. I have two long
plastic tubes that I stuck in the top of the helmet and
mask ran over his head.

Sixth, when everything is dry, you are ready to paint. The cut is navy blue metallic silver (like the two tubes on the ceiling). Add the black lines on the pipes to give the illusion of 3D edges. Tubes mask look in black, silver metallic cool.

From the seventh before the mask is heavy, strong Velcro to attach to the back of the helmet fetish to fix the head. In addition, you may want to add padding inside the mask, where he sits on the nose, as it is difficult.

Now this are methods of making Bane mask above, maybe you can learn something from it.

How to DIY cosplay costumes? Have you ever make

Bane masks

? Here are some ways to teach. I hope this is helpful to you!

In order to obtain certain materials. If
they were able to order clothes, you can always make
your own. Places like Jo-Ann sell costumes and regular
sales (although tissues distinguish each sale). Make
sure you buy the right equipment for your character -
do not buy velvet, if you are a ruthless warrior. Note
that you get what you pay for - cheap materials tend to
reduce wrinkles, transparencies or milling. Slippery
fabrics are much more difficult to sew. Do not forget
to bring your documents to the store, so you can be
sure that you are getting the right tone - finally I
was not going to buy fabric to suit Naruto and realize
that there are much brighter things we bought it.
Therefore, as a material seems to think. You do not
want someone to take a photo of your dress look, and
see the flash of the camera has an elegant dress in a
bright mess themselves.

Think of the time. It is very well to say
that he wants a full size Totoro out. Convention in

August, but it will be hot, tired and dehydrated very quickly in the opposite end of the scale, says he wants to cosplay as Winry Rockbell from FMA in January could be a problem!

Stroll through the halls. Through the different sections of Jo-Ann and Michael, you can find some suggestions for strong data replication, and you can find the right material for help has never been considered before.

Tom Hardy has said he had to get used to
wearing

Bane masks

to play Bane in The Dark Knight Rises.

The 34-year-old was hand-picked by director Christopher Nolan to play the comic book villain, known for his shaved head and headwear which looks like a gas mask.

Speaking at the premiere of his latest film, This Means War, Tom said: "Bane's mask is tight, actually. I got used to it, but you get used to anything really, in time."

The actor has described the character as "brutal" and "heavy-handed", but said that he had no problem separating himself from the role.

"I didn't get into a dark place at all. A lot of dark characters are easy to have distance from, it's something I feel comfortable with, I suppose."

Tom added that he enjoyed being silly for
his role in romantic comedy This Means War.

"It was nice to do something fun as I
always take myself so seriously," he said.

Those who have watch TDRK are like Bane and his

voice.
Bane
masks and Bane's voice is popular.

The word from the beginning of Bane, Tom Hardy in
The Dark Knight Rises Christopher Nolan played is that the wicked
do not speak very clearly. How can nobody could understand what
he said, and put Nolan Bane mixing understandable. Comprehension
problems are solved, but the voice of Bane is still rare, so if
Vulture met Hardy in The Dark Knight Rises first night, was asked

to explain the inspiration. "This is a guy called Bartley Gorman was founded," he said. "He is the king of the gypsies, and he is a boxer, a boxer without gloves, Irish traveler, a gypsy." If you're not familiar with the legend of Bartley Gorman, a clip of the documentary in 1995, the focus is not disappointed.

Many fans of
Assassin Creed Creed
murderer wants to know end, behold a year to talk about
it.

The party has criticized Ben Kuchera seems very

interesting. I'm a big fan of late are on the surface, ambiguous. The characters do not know what happened, is the objective evidence. Desmond, the efficient rescue of a father takes his ass, the MacGuffin, which can be unlocked to Minerva and Juno, Desmond precursors for a road and needs a way shittier shit. It kills almost everyone except the slaves.

Cue the American Revolution:
Ratonhnhaké: heavily inspired tone effectively killing Charles Lee in a scene from Gangs of New York, the fruits of their labor - rose over the shoulder, to the cheers of British oppression. Race and convicted, and all that remains, the death toll is set. My house was built, a new variety of its own creation, is performed safely in an urban target, if you harbor.

Assassins Creed and our clothes are now available! To fit the collection through

Assassin Creed ending go on-

The end of the story of Desmond is ambiguous,
so it must be. This is a franchise, after all. However,
developers working for the story and the ending time are no
different. Desmond gave his life to see the result of the
murderers of destination. If you have more time, more
resources, more than any other, it would be a different
ending.

Desmond enslaves humanity Juno release. We do
not know what made the Templars. Published with Juno, you can
think what they want.

It is a further objective. In the epilogue to
one side starts the game - Animus Hacks This instruction
stored in the cloud, so that the other players who are
affected by their activities. Something bit cold to explain
how the story without animus Desmond use found someone hack
the Animus Desmond BLE Sun genetic memories, can occur
without the use Desmond to life.

The story of Assassins Creed is a battle
between humanoid murderers want to decide their own destiny,
and the Templars would control a populous that whenever it
cannot handle. Identifying people with Desmond found itself

in the total destruction of civilization would have done, took control - a belief that it is good Templar order to take control of a predecessor would.

It is therefore a discussion on the Internet, we can put to rest. I mean, I know it's tempting to say the spell, but the evidence is overwhelming. Bane voice was actually shared between the first screenings of The Dark Knight Rises prologue later changed to "last year, and the film earlier this month, the proof is in the form of a comparator between the two audio versions, which can be heard below.

As we wrote in our initial review of The Dark Knight Rises prologue, although actor Tom Hardy Bane voice statement sinister personality is extremely effective, the words themselves were often incomprehensible heard through the mask. Most of his face The view was echoed by many other outlets, and later by viewers who saw the same images with

IMAX projection Mission: Impossible - Ghost Protocol. The Heat Vision blog of The Hollywood Reporter, December 2011:

Sources close to the movie say Warner Bros. is very aware of the sound. A source working on the film says he is "scared to death" on the "Bane problem." And because the last Batman movie, 2008, The Dark Knight, more than $ 1 billion reported and the studio does not want anything to change the chances of success of the climb. If you like Bane's movie, you will like Bane's cosplay mask like

Sure, his voice muffled Bane has led to the production of many video parodies. Bane's cosplay of

Nolan has agreed to minor changes in the sound mix, the result can be heard in the video above do. Your mileage may vary, depending on how "small" changes were. While some lines have been added, or at least several shots were for the final version, and the voice of Bane is consistently clear and stronger together. In all cases, Hardy is much easier to understand in The Dark Knight Rises as initially feared, and what changes he and the filmmakers turned to the creation of what was the Alliance staff unanimously BD worthy successor Joker Heath Ledger.

"The only thing you should have seen during this sequence is Bane injured in his youth," says Hemming.

"In this scene deleted in jail, where he learned to fight learn to fight in the same way Batman, dressed in an early version of his belt. There is a section at the beginning of Tom Hardy, where he fights and teasing people. Has strings on it, and he is in a wooden thing, while attack people. And in this scene, which is the most primitive mask takes uneven ".

(Now
Bane
jacket is available!)

And here we thought we could not express the emotion, no more than The Dark Knight Rises! I hope the scene will be included in the DVD case, so we do. "The recognition of Gotham" more of an idea of what Bane was on the road.

In the comics, Bane pumped an average
huge physically very intelligent (usually). In the
film, it is Tom Hardy, who could not look around, buff,
if you have not seen the creation, but has played in
the position of the hype if necessary muscular Acerca
-. See the title role in Bronson.

Bane spent his childhood in a prison in

the fictional country of Santa Prisca Caribbean after his father fled decided to stop his imprisonment to life imprisonment for the revolutionary attitude towards the government and the corrupt authorities. Obviously, nobody said it was a blatant violation of habeas corpus and abroad frowned upon in polite society.

In addition, in the market

Bane mask

is very popular for this movie.

Bane killed his first man at 8, a
criminal who wanted to use Bane as a funnel for more
information about the prison. The man had a bad
complexion knife hidden in her cute teddy bear Osito
sick. But I was not all about the murder! In addition,
I learned something books and other prisoners worked in
the gym whenever possible. I also like long walks on
the beach, always caught in the rain, and the Lord of
the prison.

But Dr. Leong and his team went through these questions and speculation about how

Bane mask

was associated practices in the field of medicine today. They believe that the mask may have two components.

The first could do with the type of analgesic Bane, and how it fits into the vest. They said

Bane mask

strive lyophilized drug (lyophilization), which
is in the bags in the jacket (see photo above) saved. Dr Leong
wherein the medicament may "by means of sublimate the back of
the head piece and is the gas which is directed over the head
to the mask that covers the nose and mouth. Analgesic classes,
a load (the morphine substance be), steroids, ketamine, nitrous
oxide, or a combination of any of these analgesics. "

The team also has an interesting theory on the
tube at the back of the neck of the Bane. They said they look
the pipe in terms of surgical scars Bane, the tube can be
injected with a chemical poison "in the liquid that
intrathecal extreme pain tolerance and the function of the
possible increase in adverse effects neurological changes
must explain the behavior - extreme aggression, perhaps even
delusions and paranoia."Remember Bane in the prologue and
trailer there seems to be a bit aggressive, is not it? Such a
scenario would also recognize Nolan poison aspect of comics
in his film.

Finally, Dr. Leong has a good description of analgesics used in clinical practice, some of which could be used for Bane in TDKR.

How do you know Bruce is the Batman? Just from the special

Bane mask

? Of course the answer is no.

Batman takes Bane and Selina stick long
enough to hear Bane Batman that his real name surprised
both Bruce and Selina. John Blake discovered as a child,
Bruce a charitable donation to the orphanage Blake lives
in. Seeing Bruce Blake came left with serious repressed
emotions that would be a reason to become The Batman, which
appeared years later. He asks Bruce with his suspicions of
his alter ego when you visit. Although Bruce did not
confirm his theory, he did not deny, or provide evidence
that Blake is actually Batman is Bruce. James Gordon is the
only character who is Bruce Wayne directly (as Batman),
Batman's alter ego. Batman reveals his identity to the act
of kindness meant Gordon taught him as a child by a jacket
over his shoulders after the death of their parents. Gordon
remembers the incident with the child, and places two and
two together, Bruce works.

So, It's not because about his symbol-

but because Selina.

Last month we showed you how to make your very own

Bane mask

. And with Halloween coming up, nothing would be cooler than dressing up like Bane! But, Bane's appearance consists out of two very important things. First off, the mask

of course. Remember this line from Bane: 'No one cared who I was, until I put on the mask.' You will obviously remember it and most of you will have read the line with Bane's voice in your head. That brings us to the second important part of a perfect Bane appearance; Bane's Voice.

If you have a Bane Mask, you are cool. No doubt.
But if you don't have the voice, your whole cover will be blown. So you have two choices, one you have the Bane Mask and go walking around silently and ignoring everyone who talks to you (you can do that, because you are Bane). Or.. you learn how to talk like Bane and wearing a

Bane mask with voice changer

!

Do not think it is impossible;

Bane mask with voice changer

is popular now!

Us here at UNTLD searched the vast universe of
the internet's for the best Bane impersonations and found you

I will be very low budget this year of Bane. My

costume is still far from this screen is exactly in this year,
and I'm very sure I wanted to go until a month ago, which left me
time very little planning or resources to do was right.

So I bought a
Bane
mask of doom online and I'm very happy with it most of the
time. One thing I do not agree with the way the paint had the
pleasure of all tubes. So I tried to paint at least to calm my
feelings for her. People's opinions, but I want to here, as it
seems? I continue in the direction that will change or
altogether. The first picture is painted directly below the
tubes. Second of all tubes are painted. Not necessarily mean that
the pipes as dark as in the movie, but the way he did it was only
money for me.

I came across this question, but now that I have
solved this problem, I agree with you.

You can simply buy an
original Bane
mask, then paint, and you can change the color you want. Bane
original mask sold on this site. And you can get it soon.

When TDKR is popular all over the world,

Bane mask

and

Bane jacket

and his special voice is popular

cosplay.

Plenty of ink has already been spilled on how Hardy's muffled dialogue is near-unintelligible, but we were more surprised by the voice he's adopted to play the character: Sure, Bane is a giant, hulking wrestler-type with a shaved head and a fearsome countenance, but his accent is so enjoyably fruity and bemused! The regular trailer only includes one line from Bane, but the IMAX prologue contains several more, and in case you haven't been able to catch that yet, Vulture's gone ahead and picked out several Bane sound-alike. Put these all in a blender and you'll have something close to Batman's new foe.

So somebody will ask, how to mode Bane's voice? As it occurs to designer's mind, they are design

Bane mask with voice changer

; it will let you more like Bane.

I decided to take a break from my Robocop suit for a few weeks and decided to build

the Bane mask

on The Dark Knight Rises.

The idea was to have accuracy (ISH) for cheap

Bane masks

with most of the things I've had lying in
the garage.

I found some reference pictures in
google and I have to work with my good old cardboard.
This is a list of the materials that I used to I
Laying:

- Cardboard (main structure of the mask)

- Velcro (to hold it to my head!)

- Small piece of plastic sheet (mouth piece with holes in)

- Wooden scewers (details)

- Milk bottle top (details)

- Shampoo bottle top (details)

- Plastic hoses of varying size (face hoses)

- 6mm ID Springs (face hoses)

- Spray paint (er....)

I did have to buy a few things
though:

- Non slip mat (mesh type for details)

- Black cable (for the two hoses on head)

Thus began the basic form is quite
simple, and he had so fairly quickly, but cut all the pipes and fittings took some time. All this was taken with my trust glue gun and ends here, but in its raw form.

But I have found

Bane mask

on sale now~ I also feel it is better than what I make!

Some Bane's fans often interested in a question that why Bane wearing a mask? In the google you can find many answers that others give.

The reason that Bane wears the

Bane masks

is because he has to be dosed with a
supply of a drug called "venom". This drug is why he is
so fast and so strong. He was already incredibly smart
before the drug. The drug was forced upon him back at
the prison where the guards and that doctor tested it
on him. They did this because they were testing a lot
of the inmates and Bane could tolerate it.

The venom is actually supposed to go
into his brain via tubes, but that would have
involved almost a whole extra movie. In the end the
movie had many clashes with the comics but was an
awesome movie....this is what Bane is really supposed
to receive but after reading the other posts Nolan
could've have just rewrote some stuff about
pain.

As

Bane mask

are well known, some shops start selling

Bane jacket

Wow, although Bane the Dark Knight Rises is not looking.

You know, in a way asthmatic sex pests. Want to look like him? This Halloween / Comic-Con / Weekend

Then make your own mask that Bane Alex Charak, found a brilliant young American on the Internet, it did. Watch the video (below) and follow the instructions step by step, the amounts for Esquire, of course.

1. The first thing you need to do is buy a cup. I
mean, a cup, like a plastic helmet for their nuts. This is the
most important part of the mask Bane.

2. Bane mask, buys with a hole in his mouth. Use
Superglue or hot glue the cup upside down on
the
Bane mask. It is the main base of the mask.

3. to your local hardware store and buy a thin
plastic tube. Also take some nuts and nipples of various sizes
(yes, apparently they are called).

4. Cut the tube in small sizes, put some nuts and
nipples, and hold the tube.

5. Then both ends of the tube with adhesive mask.
If you do this a few times, like his mask ventilation system has
a real future. I spent two long plastic tubes, which are at the
top of the cup and ran towards the
Bane
mask on his head.

6. When everything is dry, you are ready to paint.
The cup has navy blue and metallic silver (like the two top
tubes). Add the black lines on the pipes to give the illusion of
3D edges. Mask fashion in dark silver metallic pipes.

7.
Bane mask is too
heavy, add strong Velcro helmet fetish back to fix it on the
head. Also, you probably want padding inside the mask sits on his
nose to add, because it is difficult.

Fill the 8th outfit with a green military jacket,
black cargo pants, a glove and a right leather jacket. Shaving
the head or a friend finds yourself bald and you have a sick Bane

costume.

The Dark Knight Rises With less than two weeks, I
thought it would be a good time to be taking a look at Bane, and
most importantly, working his mask. Although not much is known
about the ultimate enemy of the Dark Knight is, what we know is
that the mask not to drink poison, the super strength, as are
used in the comics. Instead, get his gas mask an analgesic that
breathes constantly to eliminate chronic pain from an injury in
the past. As Bane said in the prologue of TCT under the
Bane
mask "would be extremely painful."

To help me understand how this could work his mask,
I was looking for Dr. Michael Leong, chief of pain Stanford
Center of Clinical Medicine, and his team of experts in order to
try to understand how Nolan could mask a notorious TDKR play

you need in order to breathe for the duration of the

Do you know how to paint

Bane mask

?

I will be very low budget this year of
Bane. My costume is still far from this screen is exactly
in this year, and I'm very sure I wanted to go until a
month ago, which left me time very little planning or
resources to do was right.

So I bought a

Bane mask

online and I'm very happy with it most of the
time. One thing I do not agree with the way the paint had
the pleasure of all tubes. So I tried to paint at least to
calm my feelings for her. People's opinions, but I want to
here, as it seems? I continue in the direction that will
change or altogether. The first picture is painted directly
below the tubes. Second of all tubes are painted. Not
necessarily mean that the pipes as dark as in the movie,
but the way he did it was only money for me.

Also, it is convenient that if you can buy a
no-painted

Bane mask

than to paint.

Do you know how to make a Batman
Bane mask by himself?
Here are some tips that will tell you how. Find out now!

The first thing to do is buy a cup. No consumption
of paper cups. I mean, old plastic cutting their nuts. It is an
important part of the Bane mask.

Then
Bane mask fetish buys
a hole in his mouth. Use glue or hot glue the cup upside down on
a fetish mask.

Write to your local store and buy a thin plastic tube. Also take the nuts and nipples are different sizes (yes, apparently they call it).

Cut the pipe into small pieces, place the nuts and nipples, and adheres firmly to the pipe.

Then the two ends of the tube connected to the mask. If you do this a few times, it seems like Bane's mask has a realistic system of ventilation. I have two long plastic tubes, which were at the top of the cup and found a mask over his head.

Asuna thought originally did not intend to die in the game, before the meeting Kirito. Meeting radically changed the personality and attitude Asuna. Soon most things seriously Kirito said and look for help, as a kind of lifeline. For most of Volume 1, even if she is married kirito.

Asuna is a young and friendly, which is similar to
Kirito cannot allow others into trouble. It takes the game very seriously and is very focused on cleanliness before Kirito told him something to enjoy ODS. Asuna is a bit proud and not afraid to challenge himself with his authority or show off their culinary skills physically. She is not afraid to act on their own and things personally, from time to time. Although enemy were dead under
kirito sword,
Asuna dead because of her lover-Kirito. Maybe this plot is everyone do not want to accept.

Asuna again Kirito is like someone who can be
controlled by their emotions often. This is best illustrated with Kirito moment when he jumped in front of him for a targeted attack Heathcliff and appeared to be dead. You cannot deal with the death of the other, and thus loses control, takes his eyes after being shot Liberation Army.

The HDR photography might make them look a little too much like action figures, but that's a niggle. Everything else about these two, from the photography to the "acting" to the outfits, is just about perfect.

The Dutch pair, dressed as assassins creed 3 costume (from the Vita's Assassin's Creed III: Liberation) respectively, were so impressive that Ubisoft invited them to come in and play Assassin's Creed III early.

To really get an idea of how impressive these

outfits are, check out the detail on the close-up shots of the weapons and accessories.

Do you like Sword Art Online? While I see many different Kirito cosplay, I also want to cosplay it.

Sword Art Online takes the form of a giant floating castle called Aincrad, with 100 floors in it. Each floor has a medieval-themed setting and a dungeon with a boss, which has to be defeated before players can advance to the next higher floor. Like most RPGs, it implements a level based system.

Yesterday, I make a cosplay by myself. With
kirito sword , I
feel so cool~!

Do you like Sword Art Online? Are you interested in

kirito cosplay costume

or asuna cosplay costume? Here we have some methods to teach you how to make

asuna cosplay costume

by yourself.

Collect your materials - for this costume you will need

: Two pairs of over the knee socks in white - these can be purchased from any stores that sell socks and gloves or often little pop up stalls at your local shopping center. You will also need fabric paint in the colors of red, gold and silver. About two meters of lace of for the rimming of Asuna's arm sleeves and for the hem of the "coat". You will need to pick up from an op shop a white old fashioned dress- one that is preferably sleeveless and down to the floor- if you can't find one of these create this vest plus half skirt using a pattern and purchasable material from your local craft store. You will also need- Velcro about half a meter, two meters of red material, two meters of white material, some drawing paper, two meters of wide gold ribbon, 4 meters of red ribbon a pair of scissors, a sewing machine, some paintbrushes and a lead pencil.

Take your white dress and cut off the collar.

Later reattach this using a sewing machine to achieve Asuna's high collared top. You may need to seek help doing this - as my aunt did this for me. If you couldn't find a white dress that is sleeveless and button up - two white business shirts will also work for this. With the business shirt pup up the collar and cut it off - reattaching it to achieve the high collar yet again and cut off the skirts sleeves leaving you with what looks a bit like a vest.

Once this step is complete put the shirt on and pulls across one side of the shirt as if you're doing up a bathrobe.

Once it is fitted across your body the way you want it to be, mark where it lines up with a lead pencil.

Note some of this has happened in the
last episode, it is obvious that someone kill other
players vengeance were all former members of the guild,
and somehow, someone will be able to kill people in the
security zone in which it would be impossible to injure
other players, but anyway that someone kill other
players in the security zone.

Now, for the current episode of the
question of the possible target killer began to think
that it was a ghost that keeps players because it is
obvious that a ghost could kill someone in the security
zone. Kirito other hand, do not believe it, because he
saw the assailant with a teleportation crystal,

however, cannot be a ghost with a physical object that only the mystery even more mysterious.

Even after a lot of thought and Kirito and
Asuna failed to reach a solution while eating Kirito then realized that something was unnoticed until the players then transported to safety and the fact that the alleged murderer is dead and I finally understand what in reality is no player death, happened just the destruction of the uniform of the players and the last time I teleport crystal, it looks like it was killed by

kirito sword

.

They had decided that everything was in
the hands of the guilty is really guilty leaving
nothing and I just wanted to clarify the death of
someone important to them, the former leader of his
former clan. Kirito and Asuna was long before Asuna
talks about marriage in the game, when two separate
deposits home player to start documents themselves, so
they added the other access points bail and then
noticed another that Kirito elements can be rotated by

the holder in this way, the husband of the offender Grimrock guild leader came first, then decided to take them.

Ultimately, it was a part Grimrock
exploited his former colleagues had anyone suspected plan. A guild of assassins' player is also appeared, but thanks Kirito nothing bad happened, and that the author was his former comrades probably brought a prison to pay for his crimes.

What to do with all this? It was really a
plan very intelligent, and well-made for use in the
murders was not safe for the authors, the simulation
reveal the death of the guild, but ultimately the real
culprit, who they thought was there, and apparently
Kirito and Asuna are even closer as a couple, you can
only hope that the quality of the anime is
increasing.

The battle continued for over an hour until the

fall of «The Skullreaper»; the deadliest foe so
far who easily eliminated 14 players.
Suddenly, thanks to
Kirito's intuition, the true identity of the immortal
Heathcliff was discovered to be the creator, Kayaba Akihiko.
Before leaving after immobilizing everyone with the authority
of the system administrator, Heathcliff decided to challenge
Kirito with a one-on-one duel to the death for everyone's
freedom, which Kirito boldly accepted. Maybe you will
like

kirito costume

if you have finished this SAO.

The battle rages on with the unyielding
actions of Kirito and Heath cliff; both accelerating their
skills to an intense manner; and it continues until Kirito
commits the mistake of trusting a skill guided by the
system. As the match draw near to a close, an impossible
event occurs; the last attack that would have ended
Kirito's life was redirected onto the supposed immobilized
Asuna who shielded him. The attack depleted the last of her
remaining health, and as the one truth imagined in this
world, she perished in Kirito's arm.

Background

This story takes place on the 48th floor where
Kirito goes to the store to get a

kirito sword
with power equivalent to
kirito current sword "Elucidator", but broke one of the Lisbeth
customized sword while tested. Also you can get a
kirito
costume.

Lisbeth says she could make a quality sword if she
had the necessary materials. Then Kirito and Lisbeth went to hunt
a dragon for the "Crystalite Ignot" which is a rare metal that
grows inside the stomach of the dragon, but ended up falling into
a hole - the dragon nest, and in there they discovered the
Crystal is actually the dragon's shit, After spending the night,
the nocturnal dragon returns, and Kirito grabs Liz and they ride
the dragon out of the pit.

After returning to the store on the 48th floor
Lisbeth used the rare metal to create the "Dark Repulser."

Kirito has Lisbeth raise the reinforcement of Dark

Repulser from +39 to +40. Reinforcement can only be obtained within 10 hits. Unfortunately for her, Kirito promptly requests for his other sword, Elucidator, to be raised to +40 as well, to which she lets out a long sigh.

Kirito used the

"
Dual Blades

"

skill for the first time during the 74th floor major boss (The Blue-Eyed Demon) fight.

The Excalibur is the weapon of Fairy King Oberon, it showed in the battle of Kirito VS Fairy King. This strongest sword was forged by the god of blacksmith Volundr. It was stolen by King of the Frost Giant Tribe once transformed into a wolf. He then threw Excaliber into "Urðr's spring", the center of "Jötunheimr" where it impaled the Tree of Life and cut off the source of energy. When the lake froze, and the ice dungeon was formed the Excaliber was trapped at the bottom of the ice structure.

Halo 4 is a first-person shooter video game developed by 343 Industries and published by Microsoft Studios for the Xbox 360 video game console. The game was

released in most territories worldwide on November 6, 2012. Halo 4's story begins four years after the ending of Halo 3; the player assumes the role of the Master Chief, a cybernetic ally-enhanced super soldier. The story is mainly set on a Forerunner planet, where Master Chief encounters the collection of alien races known as the Covenant and ancient warriors of the Forerunner Empire known as the Prometheans. Master Chief is accompanied by the artificial intelligence construct Cortana.

Halo 4 was officially announced on June 6, 2011, at the 2011 Electronic Entertainment Expo (E3). On September 26, 2012, it was announced that the game's development was complete.

Halo 4 grossed US$220 million on its launch day, with an estimated gross of $300 million in its opening week, marking a new record for the franchise. More than one million people played Halo 4 on Xbox Live within the first 24 hours of release. As of December 6, 2012, the game has sold approximately four million copies. The game received generally positive reviews from professional critics on release.

Halo 4 is the head (hah) of the biggest
releases for a period of pre-Christmas includes large FPS
like Borderlands 2 Call of Duty: Modern Warfare 2, as well
as other highly anticipated games such as Assassin a Creed
third Master Chief was certainly a lot of work.

Halo 4

master chief armor

is so cool that many fans like to
collect.

Go 343 Industries (343i or short) - A new
studio Microsoft set exclusively managing the Halo
franchise, Bungie left to leave the scene after their Last
Hurrah - Halo: Reach. Have the unenviable task of 343i now
offer a new and better than ever, Halo, in a climate where
decent FPS thrown saved from studios such as wedding
confetti.

Master Chief was not a day as big as the sixth November time. It seems impossible that this is his last release in 2007 was means great, but it's been five years - in fact, more than five years - ever since we Spartan 117 left floating in cryo-sleep in a dusty storage basket under the dirt from the UNSC forward Unto Dawn.

You may say you like halo 4, or you like the global first

halo 4 helmet

and armor, but do you know? Halo 4 is really
cortana's story.

As always, of course, the fate of the world
rests on the shoulders of dormancy Master Chief - green
armored super-soldier was on the ice at the edge of the
Forward Unto Dawn since Halo 3 black washed five years
ago - but this time wearing our hero a heavier
load.

Save humanity is the easy part. Halo 4 in
your most difficult task is to rescue Cortana herself. It
was in rampancy - a condition that affects all UNSC AI
built into service after more than seven years. As your
knowledge base grows over time, as explained believe

Cortana, to death. And this is the heart of the Halo 4
size unexpectedly. The plot explores humanity John than
ever, but about Halo 4 Cortana and fights on their -
ironically - the human race.

Surprisingly, Halo 4 is not only a success
but a triumph bar funds for all types of FPS.

Why halo is better than call of duty? Is because
halo 4 has

master chief armor

? I think is not only.

There is a very interesting thing happens when
a video game goes from a singular version have to franchise.
They start singing posse's ability to win and lose large
amounts of quality over a period of time depending on how
their stories, gameplay and finally intellectual property
itself are handled. This is the central argument in all the
reasons why Halo is much better than Call of Duty.

A large part of these valves in the niche audiences that use games on top of the larger groups of players are able to achieve titles. For example, Call of Duty Call of gene rally for people who have a preference for First Person Shooters. By searching deeper, it becomes a case of modern World War II or, as is the case with 'Black Ops' release in November, Vietnam and the Cold War behind. From the point of view of marketing, there is something for each major was during the last sixty years, which should be more than enough to continue to appeal to anyone with a love for war.

Master chief helmet

also is a good point of weapons.

On the other hand, submerged beneath the surface of Halo and its status as a continuous series praised FPS, it is offering significantly different based on what the player is potentially looking for. Undeniably, this is a game for those who want to kill everything for fucking, but it is a compelling story of how science fiction digs its claws deep

into continuous type players. Filled with a world filled to the brim with knowledge, there is not really the same line as the story is much the case with Call of Duty.

And the lowest, if not contrite, the plot is that the players are usually pleaded in Call of Duty. After all, the first three titles in the franchise intended to put players in the boots of various many anonymous soldiers who have done their part in the Second World War. Although this was diverged in the incarnation of Infinity Ward Modern Warfare Call of Duty, the story was still fragile calm, focused mainly on many clichés moments of summer blockbusters. While a brief tribute combined with excellent gameplay and is acceptable, it seems to have become acceptable throughout the course of the game to use the experiences that made players feel as if they had entered into an action movie.

We hope to see

halo 4 armor

become the best collection.

Somebody says that halo is better than COD,
why? Because of it has great weapon or cool

master chief helmet

? So with upcoming title Halo and CoD time
out, I decided to do a post to explain why Halo is superior
and will always be CoD.

Halos campaign is a work of art. Tell a
story in depth, involves the player in one. Rich and
detailed, deep and memorable Halo has several encounters
with enemies, great battles and breathtaking
environments. It allows players to tackle Halo battles in
different ways, and soundtracks and gaming experience in
the design and experience something completely linear CoD
lower income exceeds supply.

The call of duty player experience is
basically a cinematic experience on the rails with a
single player game, the multiplayer almost mimics if the
enemy AI essentially talking cardboard cutouts. Today,
there are all these "Michael Bay" moments when players
"ooh" and "aah", but have no control over what happens.
If you want to see a movie, I might recommend shit CoD to
play a video game Halo is the clear winner.

Improved Halo game as allies' cybernetic
super soldier with a hot companion AI named Cortana. In
CoD you play as a generic military soldier..... Think
about this for a second. The homeless man in the alley
behind Denny, a soldier of army life, his father was a
soldier in the army, Hitler was once a military soldier,
and you will be like-Yoinking - Hitler? No, I do not want
to be like Hitler. Is the Master Chief, because it does

and maybe the last hero? (Well .... most of us would not anyway offend someone who thinks).

When you're designing for multiplayer, you have to be selfless. Not only including

halo 4 armor

and other weapons, but also your
heart.

Part of the responsibility facing Certain
Affinity, and all developers that specialize in
multiplayer, is the intense relationship players have with
the modes and maps they play. Unlike single-player games,
which are experienced once or perhaps a few times,
multiplayer games are experienced again and again. They are
lived. They are also very public testing grounds for people
who take their skills very, very seriously.

Not only, but also, through map-editors like Forge, have players understood the fundamentals of multiplayer level design. Ten years ago, players might have enjoyed a multiplayer map, without stopping to think about the subtleties of sight blocks and cover positions.

Hoberman says, "We're very aware of the gravity of our responsibility. We're creating this content that people are going to play time and time again, sometimes thousands of times, for one map or one game mode. It feels like a massive responsibility. We mandate internally that we play this stuff over and over. We have to be fans of our own work and we have to put it to the test day in and day out.

"We insist that our developers participate in daily play tests. It can be tough. Our artists, for instance, they have a big to-do list, but we make them take an hour out of their day to play test. We think that's invaluable. Fans are going to pick these things apart. They're passionate about every detail. It's critical that everyone working on these things is also passionate about every detail and understands how these things are going to be experienced by the players."

He points out that in single-player modes,
the story embraces the player as well as the characters in
the game, but only the actual player is having a real
emotional experience. But in multiplayer, it's about
everyone who is on screen. Are these weapons or

master chief armor

can make you win? No!

"

When you're designing campaign levels,
you're inherently designing something asymmetrical.
You're designing for the player. You don't need to care
about how the enemies feel. You don't need to care about
how the Covenant feels about their experience. When
you're designing multiplayer, you have to care about
everybody.

Not because it radically changes the gameplay
to bring players Sucko like me. In any case, what I mean is
real experts Halo, or

master chief helmet

, it is even more difficult. "Eroica" "Easy"
feels like "Normal" and "Normal" is the new (and even with
that you still cannot accept to play "normal").

But

Halo 4 is a part of
me.
In a way no other game Halo, throughout its
history.

I played with Halo and Halo: Reach
recently, and I'm completely honest with you, if I do
that with a gun to his head, could not say remember the
arguments of those games. Many efforts have been invested
in the expansion of the Halo universe. There are six
games, 12 novels, six series of comic books and Peter
Jackson almost a film about him. And everything is just
totally lost on me. I think the extent to which the Halo
story concerns you is proportional to the amount of
resources the game for you.

But from the beginning, a dramatic
confrontation between an officer and a mysterious woman
who created the Spartan soldiers with super powers, the
Master Chief in their ranks, feels the story of Halo 4

different. Suddenly, there is a palpable tension between these characters. No stranger invading voltage two people in a dark room to take part in a power struggle.

Then it happened. AI is based only seven years, and it is beyond his eighth birthday. You will die.

Ironically, most people who die in a scene
from the film, the audience cares less. Darth Vader blew
the planet Alderaan, and it's like, Big Whoop. Meanwhile,
when a paper cut Ewok, our response is to be more like,
"Oh no, I really hope someone has a patch!"

Halo 4 is a part of me.

Halo 4 helmet

is also part of my collection.

Halo game so far more than a thousand
million people die from what they were very vulnerable to
sweet Thing. But as soon as Cortana is his own mortality
and the boss does not know how to react, Halo gets 4
exciting. This is the first time I. Intently masks Master
Chief and saw the fear in him If Cortana is dead,
continue to turn the world and nobody knows. Halo 4
raises the stakes dramatically by possible at the
smallest part, no massive invasion abroad, but Master
Chief would lose his computer friend.

It is, in my experience, a striking
reorganization of the series. The total breaking Bungie
and inject new blood into all levels of the development

of the game was just a necessary evil, but broke the old habits of the halo - in a way that could hold the hook, as I had expected.

Halo 4 is here and there are plenty of new weapons
- the man, the Covenant and Promethean - but which ones are worth
getting in multiplayer? And also,

Master chief helmet

is also our fans' love.

Posted November 5, 2012

Halo 4 brings a number of new and revised weapons
on the table and that can be difficult to know where to start.
We break all the arms of the man, and Prometheus Covenant and
tell you exactly which one to use in every situation.

Do not get caught, if you jump into the multiplayer of Halo 4. It can be a brutal and nasty. Make sure you are ready... Also, you can wear

master chief costume

, to be a real halo 4 fan.

The battle rifle makes a triumphant return in Halo 4 after the last time in Halo 2 (edit: although a variant that appeared in Halo 3). Thanks to an overhaul recently, however, and it now appears that the gun is really heavy. Like in Halo 2, Halo 4, the battle rifle fires a burst of three each time the trigger is pressed. A deadly weapon in the right hands

.

Three successive explosions aimed at an enemy's head enough to see their badges and administered the coup de grace. It aims to train properly during operation and when the shutter overcome as quickly as possible and the battle rifle will be your best friend. It also has a zoom range is simple

and perfectly balanced halo close to many long-range weapons.

To succeed is that you are down with your finger on the trigger BR and the ability to aim down the sights while driving. However, it is suggested to try to kill someone with an assault rifle on any day of the week.

Beyond discussions of reality, online fencing
also investigated the sociological aspects of life in this
virtual world. Some people like collecting

Now, after playing the full game, I'm happy to say that there is a beauty in an open world.

Master Chief Petty Officer John-117 is a fictional character and protagonist of the Halo fictional universe, created by Bungie. Master Chief is a player character in the series of science fiction first-person shooter video games: Halo: Combat Evolved, Halo 2, Halo 3,

and Halo 4. Outside of video games, the character appears in novels - Halo: The Fall of Reach, Halo: The Flood, Halo: First Strike and Halo: Uprising - and has cameos in other Halo media, including Halo: Reach, Halo: Ghosts of Onyx, The Halo Graphic Novel, Halo Legends and Halo 4: Forward unto Dawn. He is voiced by Chicago disc jockey Steve Downes in the video games in which he appears.

Master Chief is one of the most visible symbols of the Halo series. With

Originally designed by Bungie artists including Marcus Lehto, Rob McLees and Shi Kai Wang, the character is a towering and faceless cybernetically-enhanced supersoldier; he is never seen without his green-colored armor and helmet. Downes based his personification of the Chief on an initial character sketch which called for a Clint Eastwood-type character of few words.

The Master Chief is a video game icon;

is his special popular, a relative newcomer among more established franchise characters, such as Mario, Sonic the Hedgehog and Lara Croft. The character has received a mixed reception. Some have described the Chief's silent and faceless nature as a weakness of the character, while other publications suggested these attributes better allows players to assume his role.

The official Xbox website for Halo 4 simply mentions the Chief battling an "ancient evil", which many have assumed means the Precursors, Forerunners or Flood. However, 343 have stated that the Chief will be facing a "dark new threat" - something that we haven't seen before.

To return to speculative rumour, it's been suggested that in Halo 4 you'll be fighting alongside UNSC forces on this unknown Forerunner planetoid, except they'll be in shambles; disorganized, in disarray, and split into factions that appear to be engaged in civil war. According to this source a video has also been seen in which Master Chief who often wears

master chief armor

is standing in front of a cave from which a strange grunting and gurgling is emanating…

All sequels feature different gameplay to some degree, but if the rumours we've heard regarding Halo 4 are

true then this game could be very different than all that have come before. Apparently Halo 4 will feature story telling and player choice at the core of the experience, with players offered a narrative experience far beyond anything witnessed before in an FPS. The battlefields will be larger too, with conflicts seamlessly spanning land, sea and space.

Internet rumour also suggests that customization will play a big part in Halo 4, or wears

master chief costume

. A new system called 'Arsenal Improvisation Mechanics' will allow for menu-free creative customization of both weapons and vehicles in order to tailor them to your play style. Apparently a heavily modified Warthog has been seen with its wheels replaced by anti-gravity devices.

If you want to play halo 4 very well, not only the weapons and

master chief armor

, Mod tactics is very important.

Magnum

Most effective: Mid- to short-range

Commenting on the role of weapons Halo 3 Magnum
from a position of strength, which was in the vicinity, has
been reduced. Well, this is a very "agile" weapon, (more
weapons and halo 4 helmet you can get here--

)a marked change in the Halo series, the Magnum
can now be used in national companies CTF matches. The Magnum
is now a little faster when you download the clip was seen
most effective use of Wired.co.uk emptying rounds as quickly
as possible to an enemy that approach, while strafing
back.

Rail Gun (ARC-920)

Most effective: Mid- to short-range

A new edition of Halo arsenal is the rail gun weapon free surprisingly brutal fire. Keep the shutter button, the charge and make a fatal blow with great satisfaction. But be careful, see the only magazine once, and the decay time is longer than usual, should look like a total idiot, and you lose your target. Ideal stupid for hosting a crowded hallway or receiving team player enough to run through narrow doors one after the other.

Rocket launcher

Most effective: Mid- to short-range

Significantly, the rocket launcher from Halo 4
block the vehicles, making it a must for any team Grande Slayer
games that large vehicles can wreak havoc on the poorly
equipped enemy cause. Rockets move almost the same price as it
was within reach, and feels like they have the same damage
radius.

Well, as far as I can gather, Cortana used the
last of her energy inside the Didact's ship to provide a sort
of "safe" area for the Chief after he detonated the nuke and
defeated the Didact. It would appear that this safe area was
probably the light-bridge/Cortana herself (you saw how
Cortana could manipulate it to allow herself and her
mood-spikes to come out of it) and Cortana had just made a
kind of room out of what was left of its/her energy to save
the Master Chief in one final effort. As the room collapsed
around them, it signalled Cortana's death - but probably not
her last appearance, at least, Halo fans all hope not. The
"data field" as you put it disappeared and the Master Chief
was picked up by a squad of ODSTs in a Pelican. If you like
it, you can get

also.

That was her using the last of her energy to do
the one thing she had always wanted to do, but was physically
incapable of. Another attempt of her trying to do this was
visible in "Origins Part II", an episode in Halo: Legends, in
about 2556, when Master Chief was still in cryo.

Hope this sort of helped! As you can gather,
not many people (besides 343) probably really know what
happened, and the programmers have yet to explain
themselves.

Swords and maces were weapons give military
units, guards and members of the killers to open battle
against armed opponents, and generally acted as main weapon
with a short sword or gun. Swords could be either one or two
hands, even if they are classed as heavy weapons.

Swords and clubs both had a great variety,
great power and attack speed fast, but not as much as rifles,
heavy weapons and short blades. As such, it can be considered
a weapon more balanced.

Apart from these attacks was a sword or mace

Assassin's Creed: Brotherhood is an action-adventure video game with an emphasis on non-linear gameplay, sandbox style game, parkour movements, crowd mixing stealth, assassinations and combat system. The combat system has some for the first time in the series; the game offers a multiplayer mode alongside 15 hours solo-Do.

Assassin's creed hidden blade

is hot because of Assassin's creed brotherhood Ezio.

The game introduces a new management system: the player can new members by destroying any of twelve "Borgia towers" around Rome where papal troops are stationed, recruit, then rescuing disgruntled citizens in their districts from harassing guards. The player as Ezio can then send it to missions in Europe or ask for help in the missions (if they are not already occupied). Killer tasks makes novices gain experience, and the player is able to customize their appearance, skills and weapon training to some degree by spending the skill points they have earned. Killers can in the mission, no return to die. Ezio masters new gadgets, such as

Leonardo da Vinci's parachute, with the dart when jumping from tall buildings with a poison faster acting poison, a crossbow, and the ability to hold and throw heavier weapons like axes can be.

Assassin's Creed II is definitely one of my favorite games of the last 12 months. It was a rich menu of the game, has a couple of steps toward fulfilling the promise of the original, with new mechanics, more variety in the game, and a new configuration of fascination: the Italian Renaissance. It was a big step forward, in other words, to a worthy in every respect.

Brothers, meanwhile, will prove a little more difficult time. As in the previous title, it is also a component of today. The game is once again framed in the ongoing battle

between the Templars and the assassins, and the players are actually the role of Desmond, who lives in the present and is able to enjoy the memories of his ancestor Ezio using a device called the Animus, and

assassin's creed hidden blade

. The game cuts between the two periods, but the majority of the game takes place in Rome of the Renaissance.

Ubisoft Montreal has stressed that Brotherhood a number of innovations and developments, has to keep the new experience, and I can definitely say it's just as much content as here in Assassin's Creed II, but it will be enough to really help to distinguish the title's stellar issue last year? We'll see.

After confronting Rodrigo Borgia and it's off to the Vatican at the end of Assassin's Creed II spirit (and no, it's not a euphemism) is blown, picks up the story with Ezio ready for a little R & R. not to be earned. Cesare Borgia - the son of Rodrigo Borgia - tested and mounted a major attack on the killer. Villa Monteriggioni destroyed and Ezio loses everything. Yes, after 20 hours, all bad-ass

ezio costume

, armor and weapons, which were lost in a moment
and players, must begin. This is the fickle nature of the
game.

If the non-numerical title, the proximity of the final installment of the series or the box art almost identical, there seems to be much confusion about whether the Murderer's Creed: last year called bilingual brothers should complete package masterpiece stealth action.
Assassin's creed hidden blade becomes sharper. It is a standalone installation of the franchise or a collection of new game ideas that are not collected at the time of making in Assassins Creed 2?

After completing the single-player campaign of the game and multiplayer dig your offer, I can confidently say that I have no idea yet. It could also be, or even both be classified, but ultimately, this distinction is not so important. No matter how you, Assassins Creed: Brotherhood is a truly exceptional Truth.

The expansequel begins quite literally with a bang, rather than immediately - both franchise time - after the end of Assassins Creed 2 Unfortunately, the calm is short lived as the Borgia clan (one pieces left in AC2) makes a visit to their charming house - without going too far into spoiler territory - revenge.

Again, Ezio's actions are driven revenge served cold
dish but it is not as easy as finding a target, stabbing time. The
Borgias completely invaded the territory of the Roma, people with
totalitarian control of their own and a dozen and several towers
highly flammable. In revenge, you must cut your legs under your
enemies; overthrow their control over the citizens of Rome and
cutting through the support of like-minded allies. Because of AC
brotherhood getting hot,
ezio

Approach is a different story Assassin Creed 2

batch of narrative punch. Although quite satisfactory for the

Once again, the actions of Ezio are driven revenge,

The weakest point of the game is the lack of a

sense of progression. Release the number of new characters to meet and new equipment is limited, and there is no "all oops, that has lost" Metroid-esque moment for all your old stuff remastered. Of course, this is about as cheap as plot devices to obtain, but a new set of techniques to kill on the way to your tool box is not all much deeper than it was at the end of AC2.

The campaign is a bit shorter this time, even if the task is much more dynamic than they were in previous beliefs. A handful of story missions are on rails, films, usually with horses (which play a much larger role in Brotherhood). Other missions that see their usual dirty tactics, but scripting scenarios, for example, a chapter of the infiltration of a passion play in the center of the Colosseum, which is not only exciting, but also - may be - unlimited questionable. One of the things that I always found charming about the first few Assassins' Creed game was the way they settled into the gaps of history. The places and time periods they encompassed - the Middle East during the Third Crusade and Renaissance Italy - are riddled with historical uncertainty.

Some of the most famous real-world figures that appear in these games have uncertain years of birth, missing years of their lives that historians can only guess at, and

relationships that are more educated guess than definite fact.
Some of
Ezio costume also AC
fans' love. One of the fun things about playing Altaïr and
Ezio is that they could slip believably into these gaps,
providing a fictional narrative that fit snugly against what we
actually know.

One great example of this is the finale of
Assassin's Creed II. The game ends with a one-on-one fight
against the game's primary villain, Rodrigo Borgia, better known
at the time as Pope Alexander VI. The problem was that I'd been
reading up on the historical figures in the game, so I knew he
was not due to die until a few years later.

Sure enough, Ezio ends up losing his weapons,
hidden blade replica,
and the fight becomes a bare-knuckle brawl. (Not many games can
say their grand finale is a fistfight with the Pope!) In the end,
with Borgia still alive, Ezio finds what he needs in the Vatican
and leaves the Pope alive to suffer the ignominy of
defeat.

True to form, nobody knows precisely how Borgia
ended up dying; it appeared to be poison, but nobody could say
for certain what it was or who had administered it. The
persistent rumour was that his son Cesare accidentally poisoned
both himself and his father while trying to murder a rival
bishop. Assassin's Creed: Brotherhood made Cesare's role far more
explicit.

In contrast, last year's Assassin's Creed III was suffocated by volumes of historical detail. Rather than settling neatly into the gaps, it simply trod roughly on known facts. The American Revolutionary War is a period studied fanatically by countless professional and amateur historians, and the events of that war are known in great detail from start to finish.

Maybe so many coser like cosplaying some characters, but these characters are suitable for you? It is very important to choose a proper character. If you choose right character to cosplay, you will win many clapping. However, if you chosen a wrong character to cosplay, you will get more criticism from others.

For boys:

The first one, you must pay more attention to
body. If your body and you want to cosplay is not very far,
that will be not a big problem. The second is face. If you're a
young and cute face, but you want to cosplay an old man just
like bane, that will be very discordant. Maybe I will recommend
you

kingdom hearts cosplay costumes

.

For girls:

The important thing in this part is body too.
Girls must choose cosplay costumes according to their body.
If you are fat, do not cosplay thin characters. If leg is
fat, or ugly, you can choose trousers. All of this is the
same in daily life. The other thing, you can learn make up,
make you more like character.

More about this can find in xcoser.com!

Cosplay is a young activity in the world. Every comic cons also has many different kinds of countries cosplayers join in. In fact, if cosplayers don't know some etiquette will lead to misunderstand each other.

To improve cosplay show quality

, from now on!

To change costumes should keep clear. If
using

tint
or other color, do not pollute environment. Such as

vocaloid cosplay costumes

and blue wigs. To

change
cosplay clothes should in changing room.

Reject
strange posture. Cosplay is a
public activity, if a cosplayer stand in a strange posture,
will make others feel uncomfortable. In public place,

behavior
of cosplayers is the symbol of cosplay culture. Do not
do some too exaggerated behavior.

Do not dance and throw in cosplay show. Comic
con place is small, dancing need very large place, and some
rock music also will disturb others. So, except stage, do
not dance in other place. The same to throw, if throw toys
everywhere, it will be a waste of place.
