Best slots for St Valentines Day

Less

than a week is left before St. Valentines Day, when lovers go to a cafe and give presents to each other. It's a special day, when the air is full of love and tenderness. And certainly online casinos can't leave it without a notice.

Software

providers create special slots

for St. Valentines Day, which reproduce the atmosphere of romance and excitement. They are an excellent choice for this day for all online casino players. And by the way, almost each top software provider has such online

casino games in the arsenal. The slots are different, but there is a thing, which unites all of them. It's special symbols, the color of background and pleasant sounds.

So

Microgaming, Vegas Technology and Cryptologic may boast about romantic slots machines. And the cutest one definitely was developed by Cryptologic. The slot is called Love Bugs, and it tells a story of love between two cute bugs Lady and Man. Though there is a humor in the game, it's still very romantic. Moreover, Love Bugs slot machine has not only beautiful symbols, but also interesting bonus game at the second screen.

Bonus

game takes to the trip along canals in Venice. This romantic adventure allows not only enjoying beautiful scenery, but also collect prizes. Bugs pick up diamonds and other valuables, which bring good credits to the players.

Other

slot machines for St Valentines Day are also good, though not so touching. If you love the atmosphere of the holiday, it will be interesting for you to play them. Many of such slots have Cupid

theme. The symbols are angels, hearts, Cupids with arrows and other kinda stuff. I think, sometimes it's necessary to play such slots, as they bring something kind and tender to our lives.
