[border="0" />](http://www.beautifulfigure.com/p_tummy.htm)Singer Rihanna known for her original songwriting and powerful singing voice has been making recent headlines and raising speculations about the possibility of her having had plastic surgery.

In [Los Angeles tummy tuck](http://www.beautifulfigure.com/tummytuck-losangeles.htm)s, nose jobs, and news about whos had what done is as common as your morning cup of coffee (or tea for our non-coffee drinking readers), and whether or not Rihannas had rhinoplasty or a [tummy tuck Los Angeles](http://www.beautifulfigure.com/tummytuck-losangeles.htm) cosmetic surgery experts tell us, is hard to say. They say, however, that its unlikely because while she appears to have a wider nose and less projected breast in a previous photo, she then seems to have a well defined and thinner nose with very round breast in another photo.

In other pictures she goes back to having the same image than before suggesting that it could be the result of better use of make up and a push up bra, and not the result of cosmetic [breast augmentation Los Angeles](http://www.beautifulfigure.com/) sources observe.

So with regards to enhancing her image with some plastic surgery procedures, has Rihanna gotten a nose job, tummy tuck, and/or [liposuction Los Angeles](http://www.beautifulfigure.com/losangeles-liposuction.htm) readers are asking. The answer is, apparel and cosmetic makeup often can alter a persons appearance in photos and other media, and its difficult to determine whether or not someones had had cosmetic enhancement by observing pictures and video of celebrities only. In Rihannas case, we can assume that if she has had any cosmetic work done that it has done nothing but truly enhance her natural beauty, as plastic surgery is designed to do.
