Bored

I'm bored, computer class is boring. good thing its over by winter break. we are supposed to be working on English and History fair... but most of us have finished or don't feel like it. HALLOWEEN IS TONIGHT!!! YAAAYYY! my neighbor won the decorations contest in our neighborhood! yay for him! it is an awesome graveyard with a torch and it is like probably gonna burn his house down. he was trying to get his kids into it. They're like in high school so they don't really care... they just want candy. well... i think that's the point of halloween. we always spend over \$125 on candy AND WE ALWAYS RUN OUT! HAHA =D! my neighborhood is insane! and they even give out cotton candy! but we're not allowed to celebrate halloween cause a 5 and 6 grade teacher says it's against their religion. we all hate her. and what kind of freaking literature teacher doesn't like Harry Potter! I MEAN COME ON!!! watevs... so ya. computer class is over... darn now i have to actually have to learn. =(tear... not really since we only have 20 minute classes and we have really races the rest of the day. but my little brother gets to run around on bouncy things and do whatever he wants. and he's in kindergarten! grrr. watevs. leaving now. o well. bi! =D
