Safe cig wins my heart with its amazing product.

The safe cig's product always touches the heart of smokers.

the safe cig
is counted in the hit list of the

Best e cigarette

because it fulfills entire requirements related to smoking. I can say this because I have been using safe cig since 2010 and I liked this product very much.

I never forgot the time when my love, my wife left me alone with a sweet boy, my son because of this stupid habit: smoking. She has died because of lung cancer. While she was on her death bed she handed over the whole responsibility of my son. I refused this deal but pleaded her to live for me and the child. But she passed away. Whenever I miss her, I see the face of my child. I hug him tightly and weep. He sees towards me with a very innocent face. He doesn't understand my pain. I wish to die but for my child I have to be alive. When my wife was taking her last breath, she took a promise from me. Promise not to smoke. I promised her but I felt taking nicotine. I can't survive without nicotine.

One of my friends suggested me e cigarette. I read many

e cig reviews
for getting more knowledge about electronic cigarette. I found the best brand of e cigarette that is

safe
cig

. It is run by a family owned business. It offers best quality product. The technology used here is in sync with the individual demands of the customers. With the help of safe cig I have profit to my pocket. I save one third of the cost of regular cigarette e.g. if I spend over \$300 in a month on regular tobacco cigarette, you simply spend \$100 on the e cigarette. It is a big saving for a

smoker. The safe cig offers a very tuned and fined nicotine delivery system. With this system you can improve the capacity of existing cartridges.

So now smokers have permit to smoke more puff with each cartridge. Overall safe cig have changed my life. I and my son both are healthier. And I feel much better than before. I give my whole rest time to my cute son. Now he has started speaking and first word from his mouth is "PA". I was mad hearing these sweet words from his mouth. I told my wife about this in my dreams and was very happy to hear this news.
