Let It Slide â?¥

I forgive; I forget; I
remember; I regret

Through EVERYTHING he's put me
through;
there's ALWAYS going to be that special place for him
in my heart;
I KNOW what he did was WRONG, but he's not thinking
straight.. I
miss him; the old him.. &;I miss his voice; I miss
his hugs; I
miss his kisses; I miss his love; I miss the daily
phone calls; I
miss the loonngg random conversations.. I know I'm
taken, but that
still doesn't mean my feelings for him will change. He
was my first
true love, and day by day; I knew the day would come,
when he
walked away; he said it's the best for us, obviously he
doesn't
know what's best for me.. What's best for me is feeling
his touch.
ONE LAST TIME. He wants me too be happy; apparently he
doesn't understand that I was happy with him.. Of course
there was arguments, jealousy, and trust issues in our
relationship, but doesn't every relationship? Yea of course
they do; but in the end, they get stronger, well that didn't
happen with him, and I; it made us back away from eachother,
and soon we backed away from eachother so much where he
couldn't take it anymore; I tried doing EVERYTHING in my
power to keep him and I together, but it wasn't good enough.
The shit he put me through wasn't okay at all, but in the

end; I always ran back to him for more, which I regret, if I would've stuck to my word; he would've realized that he lost something good, and I think he's realizing that day by day; he may be falling in love with this other girl, which is COMPLETELY fine with me, 'cause i've fallen in love with another boy, who doesn't make me cry, who doesn't put me down; he does the complete oppisite. I guess I can say: "I'm a lucky girl♥"
