Whatever ill that you have done to me, man I'm willing let's just forget about it. I will be held responsible for being belittled by situation if you are to dictate what you want to hold on me. So, we are both free, if you will let your character known, I will let mine rise as well.

I'm just really feeling dry today. Sad. Frustrated. I feel that life, my life, is just a petty turbulence created on the water where a craft or vessel has passed. It never wounded the sea and still the sea is the same. In that moment when the craft passed, a person might look at the water, blurry. I feel I am just that wave, that discordant and ephemeral wave. Who cares? Who notices? I am buried in the silence of my own helplessness. Forgive me, I'm just truthful with what I am feeling. I dreamed of nothing now. I sing of my own frustration. When the world goes topsy turvy, the comforter becomes the one who needs to be comforted. But hey, I just saw a smile passing by from TL Jovie, so gentle smiles still exist huh! I'll pray I'll be fine. Just like the setting aside of a leaf after it has turned to brown, about to fall by and to caress the roots of a tree, this humble simple being does not complain, does not say and prophesy its doom. The beauty of every discovery, the beauty of everything as is. As is, give it one more echo in my mind. I can feel it is a

drumbeat inside. Let it be. As is. Say as is.

I'm irritated with human reproach. Inconsiderate. They all believe that numbers are everything. They don't see what's really there. What I have put in the heart of this household of principles, beliefs. What they can see is the wall not what is beyond. Ok, what a microscopic eye, but what they desire is to count the pieces- they have never seen the whole picture. Gli I X
