Need bad dog stories

My dog Trucker chewed many things in his first year so we decided to photograph his exploits in a show we had called the bad dog show in October. Oversized photographs of a chewed cell phone and a headless batman are just some of the objects. We also made a video of bad dog stories from the show. If you have a bad dog story contact us gallerymonalisa.com to email us or send a link to your bad dog you tube movie! Thanks, Nadine Robbins
