1 year 7 months and 16days!!! <3

This is my first entry of my journal and I am not sure how I am going to start this. I have had amazing life the last couple years it has been hard and full of ups and downs but I am not going to change anything about it. Its amazing to me that february 21st, 2009 I meet an amazing man by the name of Jose at my job. When I first met him I thought that he was cute and I was not sure that he would like me because I had just got out of a relationship and I was not looking for one at the time. He was really shy and was not sure how to talk to me and I thought that it was really cute. It took him forever to ask me for my phone number actually he gave me his for a movie that he was looking for. When we went on our first date i knew that I was in love with him because he was so kind and gentle and all that i have ever wanted. He was brought up the right way, One of the only problems was that he was so much younger than me and that was hard for me to get use to. He was 18 and i was 23 and i thought that it was too much of an age different, But over time as we fell in love it was not a huge issue to me anymore.

Once we were together for a while i knew that he was the one but i was so afraid to tell him that I loved him. He ended up telling me first and he was so shy about it and he thought that we have not been dating long enough and when i said that I loved him too it was not that bad. After 6 months on my birthday it was the most beautiful thing in the world when he asked me to marry him and i was in heaven and it was the happiest day of my life. It has been over a year now and we are still in love and it is still going great and although we have had our ups and downs he is still the best in the world and that is all that matters...

sincerely,
