## What Can A Good New York Criminal Defense Attorney do to Get You A Fair Trial

Life in New York is often lived in the fast track which makes run-ins with the law often inevitable. While most people manage to survive these stand-offs unscathed, others are not so fortunate especially if their mistakes are more egregious and illegal in nature. Whether you actually committed a crime or have just been charged with the one, hiring a good New York criminal defense attorney at the earliest stages can save you from a lot of trouble. With his intimate knowledge of intricacies of law and police procedures, an experienced lawyer will ensure that your rights are upheld and that you receive a fair treatment under the law.

If you are detained or suspect that you may be arrested, you are perfectly within your rights to ask for a criminal defense attorney. A reputable criminal defense attorney will rush to be on your side at the police station and ensure that you are treated fairly.

It is important to exercise your right to stay silent until your lawyer arrives. The Miranda warning has been constituted for this purpose.

While it's true that unless you are planning to participate in an illegal activity, it's practically impossible to foresee trouble with the law. But shopping around for a New York criminal defense attorney after you have been arrested at a late hour is not a great idea. If possible, arranging a reliable lawyer before you have been arrested or have turned yourself in is far preferable.

When faced with charges that may result in a jail sentence, saving a few dollars should be the last thing on your mind. Sometimes the only thing standing between serving prison time and a hefty fine or a complete dismissal of the charges is your criminal defense attorney.

On such occasions a good criminal defense attorney can often get you a plea deal for a lesser charge. Instead of time in prison, you may only receive community service and a fine.

New York Criminal Defense Lawyer for Unforeseen Run-ins With The Law

Life

is full of surprises and not all of them are pleasant. Most often when an ordinary New Yorker runs into legal trouble, he is neither mentally prepared to face charges and get arrested nor financially prepared to pay huge legal fees and hire an expensive lawyer. But when your freedom and life are at stake, you need a reliable and compassionate

New

York Criminal Defense Lawyer

to

"get you out of jail, keep you out, and make the case go

away."

#### Hiring

the right criminal defense lawyer is one decision that outweighs all other considerations when it comes to dealing with unsavory situations involving criminal law. You need to take several matters into consideration including:

- 

Reputation and track record of the Criminal Defense Lawyer you intend to hire.

- 

Overall experience of the lawyer with an emphasis on courtroom experience.

- 

His performance in his previous cases: Is he creative enough and capable of out of the box thinking

- 

Fee structure, overall expense including upfront fees.

#### A

good criminal defense lawyer understands that each client has needs and financial ability unlike any other, and that each case is unique which may demand unconventional solutions. A skilled attorney investigates and reviews every case personally before suggesting the best course of action. However, the most important thing is that your attorney tries to settle your case with a creative alternative and devise a settlement you approve of and can live with.

A

settlement is generally known as "plea bargaining" which helps people avoid going on trial. Entering a plea bargain does not always mean that they are guilty; people choose it for various reasons. When faced with numerous charges, a person may choose a settlement and take responsibility of significantly lesser charges so that more serious charges can be dropped. Others choose this line of action because they want the nightmare to end quickly and without much damage.

When

looking for a reputable criminal defense lawyer, bargain hunting is not a good idea. While a good attorney knows his worth and charges accordingly, his rates should be reasonable and comparable to his colleagues.

## In a City like New York - Seven Rules would help in Hiring the Best Criminal Lawyer

New Yorkers are always on the go, grappling with their frantic lifestyle, aside from their jobs and businesses, people go partying on the much-awaited weekends. Sometimes people go overboard with their drinking and driving, and later find themselves charged with a driving offense, commonly known as DUI offenses. Dealing with DUI offenses can be a traumatic experience and only a

New York criminal lawyer

can provide a sensible relief and guidance to overcome troubles related to such charges. The following seven points are an insight into the importance of hiring a proficient criminal lawyer in New York.

1. It is imperative to know the importance of a criminal lawyer who can handle the charges of Driving under the Influence. Many lawyers may claim to handle such cases, but a competent lawyer who is updated with the volatile nature of criminal laws, which are ever-changing, could bring positive relief in the matter.
2. The defendant should hire a criminal lawyer practicing in this area. This ensures familiarity with the specific courthouse where the matter is being heard as well as the judge and prosecutors who are hearing the matter.
3. The criminal lawyer should be well aware with the complexity of DUI laws, which are often updated by legislators. He should be aware of the psychological and scientific evidence that can be significant in changing the course of the disposition.
4. The professional lawyer handling criminal cases should have ample experience in drunk driving trials with successful outcomes for people living in New York City. Hiring a novice is a gamble which can prove disastrous by getting a criminal record and a harsh sentence.
5. It is advisable to be straight about the costs of hiring a lawyer. Many professionals have an hourly billing system while others may charge a fixed fee. Charges should be discussed prior to hiring, and one should bear in mind that a cheap fee often may be accompanied by less than competent service.
6. It should be ascertained if the criminal lawyer under question has ever been suspended or reprimanded by any board for

professional conduct in New York. 7. Try to get referrals from anyone who has been charged with a DUI offense before. Word of mouth and internet forums can be helpful in finding a good New York Criminal Lawyer.

A proactive approach and adhering to the above-mentioned rules can help in finding a good criminal lawyer in NYC, which can change the course of the case. A
