Tarot the answers from a birthday card

there was a death on christmas

give her 10 points

you cheat, you never disgaurded

the devil himself

lives in that face

stare into black and white hour glass

turn on night shot and film it in slow motion

do the fade in affect

for fear and commotion

dance before you learn to walk

dance before you learn to crawl

dance to get in the place

its a sold out crowd

and nobody is selling their ticket

cept those whose souls are already on ebay

the chosen

sing before you learn to talk

sing before you develope lungs

sing to earn right of the voice
they'll take it away handidly
with their mind control
one of those use your head kind of deals
the joy of the whole speal

Happy

I'll be happy when this night is over
I'll be happy when this (all)life is over
I'll be happy when

they discover a trip to mars
is a meditation
and hands that heal
is a medication

I'll be happy when
I can make a guitar solo
that the leaves you hanging
turns to leave you headbagging
I can't make a happy song
