Vacation

In a few weeks my family will be going on our spring break vacation. We are going to be gone for a little over a week and dont like leaving our car in the airport garage for that long. We are staying at a hotel the night before we fly out which is convenient. We get to leave our car in their lot and the hotel will also take us to the airport as a courtesy in the morning. We booked this package after searching online for a cheap rate. The website we found was really easy to find all the information we were looking for. Cant wait for our vacation!

Website

Sorry forgot to tell the website we found
(haha)....buyreservations.com. Check it out!
